

J. Major Capital Projects

The only major capital project scheduled for 2009-10 is a renovation of the Science Building. Primary funding for this project comes from a U.S. Department of Education grant (as noted above in section I) and is in collaboration with Hudson County Community College. The goal of the grant is to align the science and technology programs of both institutions in order to facilitate the transfer from the two-year community college to the to the four-year university.
